

Practical Skills in International Credential Evaluation

This Workshop will focus on the key issues in the field of international academic credentials and admissions. You will have a chance to network with presenters and colleagues, who share their real-world experience and provide you with their unique, time-tested tools and techniques.

In addition to a thorough review of credential evaluation methods, this workshop includes a detailed segment on WES's document recognition process, including how to detect fraudulent documents. Drawing upon WES's most experienced evaluation specialists, the workshop stresses hands-on evaluation of actual credentials while providing you with invaluable resources.

Topics include:

- Obtaining Authentic Credentials
- Comparing Systems of Education
- Making Accurate Grade Conversion and Transfer Credit Decisions
- Uncovering Invaluable Resources

Our interactive, small group format makes use of hands-on exercise and case studies and prepares you to put your training to immediate use. Participants receive a comprehensive handbook on international credential evaluation that will serve as an ongoing reference.
